

Aptitude Questions

Question 1

Company: TCS

Round: HR Interview – Aptitude Question

Year: 2014

Difficulty: Hard

Topic: Time and Distance

Question:

There is a 20-feet tower. A monkey climbs 3 feet in one second and drops 2 feet in the same second. In how many seconds will it reach the top?

Options:

- A. 17 seconds
- B. 18 seconds
- C. 19 seconds
- D. 20 seconds

Answer:

B. 18 seconds

Explanation:

After every full second, the monkey gains only 1 foot.

But when it reaches 18 feet, it climbs the final 3 feet and reaches 21 feet.

It does not slide back after reaching the top.

Therefore, it takes **18 seconds**.

Question 2

Company: Wipro

Round: Written Test – Placement Paper

Year: 2025

Difficulty: Hard

Topic: Numbers and HCF

Question:

Find the greatest number that will divide 355, 54 and 103 so as to leave the same remainder in each case.

Options:

- A. 4
- B. 7

- C. 9
- D. 13

Answer:

- B. 7

Explanation:

If the remainder is the same, find the differences: $355 - 54 = 301$, $54 - 103 = 49$.

Now find the HCF of 301, 49 and 252.

Their HCF is 7.

So, the answer is 7.

Question 3

Company: Wipro

Round: Written Test – Placement Paper

Year: 2025

Difficulty: Hard

Topic: Number System

Question:

Find a positive number which, when increased by 16, is equal to 80 times its reciprocal.

Options:

- A. 20
- B. -4
- C. -10
- D. 4

Answer:

- D. 4

Explanation:

Let the number be x . Then $x + 16 = 80/x$.

Multiplying by x gives $x^2 + 16x - 80 = 0$.

Solving gives $x = 4$ or -20 . Since a positive number is needed, the answer is 4.

Question 4

Company: Wipro

Round: Written Test – Placement Paper

Year: 2025

Difficulty: Hard

Topic: LCM and HCF

Question:

The LCM of two numbers is 30 and their HCF is 15. If one number is 30, what is the other number?

Options:

A. 30

B. 25

C. 15

D. 20

Answer:

C. 15

Explanation:

Product of two numbers = LCM $\times$ HCF.

So, $30 \times \text{second number} = 30 \times 15$.

The second number is **15**.

Therefore, the answer is **15**.

Question 5

Company: Wipro

Round: Written Test – Placement Paper

Year: 2025

Difficulty: Hard

Topic: Fractions

Question:

Which of the following is the largest?

Options:

A. $\frac{7}{8}$

B. $\frac{15}{16}$

C. $\frac{23}{24}$

D. $\frac{31}{32}$

Answer:

D. $\frac{31}{32}$

Explanation:

Take the LCM of all denominators, which is 96.
The fractions become $84/96$, $90/96$, $92/96$ and $93/96$.
The largest numerator is 93.
Therefore, **$31/32$** is the largest.

Question 6

Company: Wipro

Round: Written Test – Placement Paper

Year: 2025

Difficulty: Hard

Topic: Time and Work

Question:

Three friends A, B and C can individually make 60, 30 and 40 pastries per hour. They work in shifts of 30 minutes each. How much time will they take to make 185 pastries?

Options:

- A. 4 hours
- B. 3 hours 45 minutes
- C. 4 hours 15 minutes
- D. 5 hours

Answer:

C. 4 hours 15 minutes

Explanation:

In 30 minutes, A makes 30 pastries, B makes 15 and C makes 20.

Together, one complete 1.5-hour cycle makes **65 pastries**.

After calculating the required cycles and remaining pastries, the total time is **4 hours 15 minutes**.

So, the correct answer is **4 hours 15 minutes**.

Question 7

Company: Wipro

Round: Written Test – Placement Paper

Year: 2025

Difficulty: Hard

Topic: LCM

Question:

Six bells start tolling together and toll at intervals of 3, 6, 9, 12, 15 and 18 seconds. In 60 minutes, how many times will they toll together?

Options:

- A. 10
- B. 20
- C. 21
- D. 25

Answer:

C. 21

Explanation:

First find the LCM of 3, 6, 9, 12, 15 and 18, which is **180 seconds**.

60 minutes = 3600 seconds.

They toll together every 180 seconds, so $3600 \div 180 = 20$ intervals.

Including the first time when they start together, the answer is **21 times**.

Question 8

Company: TCS

Round: Online Assessment

Year: 2023

Difficulty: Hard

Topic: Quantitative and Logical Aptitude

Question:

A candidate reported that the assessment contained medium-to-hard aptitude questions. However, the exact quantitative questions were **not published** in the experience.

Answer:

Not included as a practice question because the exact question was not available.

Explanation:

I am including this transparency note because I don't want to invent a question and falsely say TCS asked it.

The source confirms the medium-to-hard aptitude assessment but does not provide the exact aptitude MCQs.

For your collection, only exact questions should be used.
